

MUNSTER MUNCH

INTERACTIVE GAME

MUNSTER MUNCH is a frenetic game of skill and playful competition. It takes only a moment to learn, but guests will come back again and again to compete with their friends for a new high score. The game features original characters as well as customization and branding opportunities. It is flexibly designed to be seamlessly integrated into your existing facility infrastructure and can tie into your payment and redemption system.

HOW TO PLAY

It's snack time! Toss as many snacks as you can into the matching color targets before the clock runs out. These monsters may have a big appetite, but they're picky eaters! Feed a monster the wrong snack and you'll lose your score streak! Do you have what it takes to get a high score and earn the rank of MUNSTER MUNCH Maniac?

Multi-User
